

**For Immediate Release:** Thursday, March 31, 2011

### **United Communities Credit Union, Mennonite Savings and Credit Union and Teachers Credit Union Expand their Relationship with Neocog Technologies Inc.**

Both **United Communities Credit Union** and **Mennonite Savings and Credit Union** have selected IntelliLender as their choice for automated loan origination solution and **Teachers Credit Union** has recently announced their choice of ACE as their CRM solution for their organization.

"United Communities has had a relationship with Neocog since 2007 providing us with CRM and Business Intelligence/Data Warehousing. Neocog doesn't view us as simply a customer but a true partner. They provide us with not only the solutions we need to effectively drive our business but support second to none." says Sandy Ferguson, VP of Operations. "When it came time to make a decision on whether to remain with the LOS we were currently using or move to Neocog, the decision was clear. IntelliLender seamlessly integrates with ACE our CRM and provides us with an easy-to-use, yet sophisticated LOS with auto-decisioning capability all functioning within our CRM."

"Our relationship with Neocog started in 2008 when Mennonite Savings and Credit Union (MSCU) implemented ACE and Cognito. This was a major part of our route to providing excellent member service" says Max Bentz, Manager Lending Services, at MSCU. "Our goals from an operational perspective are to improve communication and provide a consistent member experience. Neocog has proven to be a valuable partner that supports our organization by providing great tools to achieve these goals. This is very apparent in ACE and equally with IntelliLender. IntelliLender will help us continue to build on what we have achieved through ACE."

Kathy Clark, VP, Sales/Service & Operations for Teachers Credit Union states that "In 2009, we selected Neocog Technologies because they had a very successful track record working with Canadian credit unions and they have certainly proven themselves with the work they did on our data warehouse Cognito. When it came time to look at upgrading our CRM we looked to Neocog. We viewed ACE a number of times and were continually impressed with how it kept evolving and improving as Neocog continually strove to meet their client's needs. We are very much looking forward to what ACE will provide for our organization going forward."

#### **About United Communities Credit Union**

United Communities Credit Union, was formed out of the merger of Woodslee Credit Union of Essex County and Heartland Credit Union of Huron & Perth Counties in southwestern Ontario. Now, one of the largest credit unions in Ontario, United Communities has more than \$690 million in assets under administration and serves over 36,000 members in 10 branches.

#### **About Mennonite Savings & Credit Union**

Mennonite Savings and Credit Union (MSCU) is a Mennonite financial cooperative serving communities of faith across Ontario. They provide every day banking services to over 17,600 members with the "barn-raising" mutual aid traditions of the Waterloo County Mennonite community. From their modest beginnings in 1964, they have grown in size to over \$800 Million in assets under administration and rank eighth among credit unions in Ontario. MSCU has nine full-service branches and five sub-locations offering a complete range of banking, investment and loan products.

#### **About Teachers Credit Union**

Teachers Credit Union is a financial organization that serves all educational employees throughout Ontario, including a client base of successful small to medium sized businesses. With four branch locations, a virtual branch and worldwide ATM access, the Teachers Credit Union is committed to strengthening the community by supporting education based initiatives that empower individuals to reach their full potential. Teachers Credit Union has over \$500 million in assets under administration and serves 15,000 members.

**About Neocog Technologies Inc.**

Neocog Technologies delivers solutions designed to empower the entire organization. Neocog's Member1<sup>st</sup> suite of solutions ACE, Cognito and IntelliLender empower staff by giving them a robust 360 degree view of their members, the ability to process and decision loans quickly and efficiently and gives management easy access to vital information for strategic decision making.

Neocog Technologies provides its sales and service solutions to many of Canada's leading credit unions, including Meridian Credit Union and Libro Financial Group in Ontario, Conexus and Affinity credit unions in Saskatchewan, Servus Credit Union in Alberta and Westminster Savings Credit Union in British Columbia.
